

Forum: Connecting Smart Ecosystems

Ennoconn x NYCU ESG Innovation Accelerator @ InnoVEX 2026

The Ennoconn Corporation, in partnership with National Yang Ming Chiao Tung University (NYCU), proudly presents the ESG Innovation Accelerator — a platform dedicated to connecting startups, industry leaders, and emerging technologies. Focused on AI, smart retail, smart dining, and sustainable living, the accelerator supports startups in transforming innovative ideas into real-world applications.

By bridging technology development and market implementation, the program fosters cross-domain collaboration and accelerates ESG-driven innovation on a global scale.

Event Highlight: This session brings together four innovative startups from the accelerator program to share how AI, smart systems, and sustainable technologies are reshaping retail, dining, and everyday living. Through startup pitches and cross-domain discussions, attendees will gain insights into the future of smart ecosystems and next-generation business innovation.
